

PRELIMINARY AGENDA

22nd ParlAmericas Plenary Assembly & 10th Gathering of Open Parliament Network

Parliamentary Leadership for Shared Prosperity: Advancing Trade, Innovation, and Security in a Changing World

May 19-22, 2026 | Ottawa, Canada

REGISTRATION FORM

This gathering takes place at a moment of geopolitical and economic reconfiguration in the Western Hemisphere, as shifting trade dynamics, socio-economic transformations, evolving citizen expectations, and rapid technological innovation are redefining how countries engage with one another and position themselves in the world. In this context, parliaments are not peripheral actors: they influence economic direction, reinforce democratic legitimacy, and strengthen states' capacity to respond strategically to change.

The meeting will offer parliamentarians opportunities to reflect on how democratic governance, trade, innovation, security, and development can reinforce one another amid these shifts, and to consider how parliamentary action and cooperation – grounded in an Open Parliament approach that emphasizes transparency, participation, and accountability – can help navigate structural transformations, anchor economic and social change in democratic principles, and ensure that trade and development contribute to social stability, equitable opportunities, and a shared sense of economic progress and prosperity across the Hemisphere.
